

SAYYAD YASMIN

Software Engineering Intern | Backend Developer | Full Stack Developer
syedyasmin2005@gmail.com | +91 8790734986 | Andhra Pradesh, India | [GitHub](#) | [LinkedIn](#) | [LeetCode](#)

PROFESSIONAL SUMMARY

Highly motivated Computer Science undergraduate with strong foundations in Java, Data Structures & Algorithms, SQL, OOPs, backend development, and full-stack web development. Hands-on experience building scalable applications using Java, Spring Boot, MERN Stack, REST APIs, and MySQL. Infosys-certified Java Development Intern, hackathon finalist, and CGPA 9.03 student passionate about solving real-world engineering problems and seeking a Software Engineering Internship at top product-based companies like Oracle.

EDUCATION

B.Tech - Computer Science and Engineering 2023 - Present
RGUKT RK Valley, Andhra Pradesh | CGPA: 9.03 / 10

Pre-University Course (MPC) 2021 - 2023
RGUKT RK Valley, Andhra Pradesh | CGPA: 9.98 / 10

Secondary School (10th Grade) 2016 - 2021
AP Model School, Venkatagiri | CGPA: 10.00 / 10

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python, C
Backend Development: Spring Boot, Node.js, Express.js, REST APIs, JDBC, JWT, Authentication
Frontend Development: React.js, HTML5, CSS3, Bootstrap
Databases: MySQL, SQL, DBMS, Query Optimization, Schema Design
Core CS Concepts: Data Structures & Algorithms, OOPs, Operating Systems, Computer Networks, DBMS
Tools & Platforms: Git, GitHub, Postman, VS Code, Eclipse

PROJECTS

Smart Mess Management System | GitHub

Java | Spring Boot | React.js | MySQL | REST APIs

- Built a full-stack mess management system automating meal tracking with per-meal billing and monthly invoice generation.
- Designed admin dashboard with billing analytics, food wastage prediction, complaint handling, and menu management.

Newspaper Agency Automation System | GitHub

MERN Stack | React.js | Node.js | Express.js | MongoDB

- Built subscription and billing automation replacing manual agency workflows; developed backend APIs and React.js dashboard.
- Automated delivery tracking, invoice generation, and customer management with real-time monitoring.

Automated Task Reminder Application | GitHub

Java | Spring Boot | REST APIs | MySQL

- Developed a task reminder system implementing scheduling, reminder tracking, and full CRUD operations for student productivity.
- Built backend modules for task persistence and automated notification management.

EXPERIENCE

Infosys Certified Java Development Intern Nov 2025 - Jan 2026

- Developed the Automated Task Reminder Application using Spring Boot, REST APIs, and MySQL for real-world backend implementation.
- Strengthened backend development skills and received Infosys Java Development Certification upon successful completion.

ACHIEVEMENTS & CERTIFICATIONS

- Decodex Hackathon Finalist - NL Dalmia Institute of Technology, Mumbai
- MetaCode Coding Contest Finalist - IIT Kharagpur
- Solved 300+ problems on LeetCode and GeeksForGeeks
